

PCCUS
PAKISTANI CHAMBER OF COMMERCE - USA

11 - Official Launch Announcement

I am proud to officially announce the launch of the **Pakistani Chamber of Commerce in USA (PCCUS)**, established in April 2026.

PCCUS has been founded with a strong mission to build and strengthen the relationship between the United States of America and Pakistan through trade, business, economic development, education, tourism, product promotion, and cross-border opportunities.

This chamber has been created as a professional platform to connect entrepreneurs, business owners, investors, professionals, importers, exporters, institutions, and community leaders from both countries so we can create meaningful partnerships, promote products and services, address important issues, and open new doors of opportunity.

Our vision is simple but powerful: to build stronger USA–Pakistan relations through commerce, cooperation, and shared prosperity.

I invite all business leaders, professionals, entrepreneurs, and organizations in both the United States and Pakistan to join this important mission and become part of a chamber that is committed to creating real impact.

Sincerely,

Shaheen Azam

Chairperson

Pakistani Chamber of Commerce in USA (PCCUS)
